# CA$H ME$H

# CA$H MESH

**CashMesh** is a special in-game feature triggered when the player lands the required number of Cash Mesh Scatter symbols (typically 5 or more COIN symbols), and by default, no technical setup is needed! Upon activation, the player is awarded a specific number of bonus spins. The mechanics of these spins differ from those in the base game or regular free spins.

During each CASH MESH respin, any position containing a COIN symbol is held in place, while the remaining positions respin independently. CASH MESH spins continue until either all bonus spins have been used or all positions are filled with COIN symbols. The final payout is the total sum of the values of all COIN symbols.

# CASHMESH VERSIONS

We offer three different versions of CashMesh games: **Regular** (e.g., Buffalo Trail), **Ultra** (e.g., Buffalo Trail Ultra) and Link (e.g., Buffalo Trail LINK). Jackpots are united in this group of games with the same base value. Every CashMesh game includes:

two **PROGRESSIVE** jackpots: **Major** and **Grand**.
Contribution taken from the bet and included in the game RTP:

**Regular:** Major (0.7% of the bet value) and Grand (0.8% of the bet value) = Resulting in a total contribution of 1.5% taken from the initial bet, and included in the game RTP

**Ultra:** Major (0.7%) and Grand (0.8%) = 1.5%

**Link:** Major (0.64%) and Grand (0.16%) = 0.8%

two **FIXED** jackpots: **Mini** and **Minor** (multiplier x bet value)

**Regular**: Mini = 30x, Minor = 50x

**Ultra**: Mini = 10x, Minor = 20x

**Link**: Mini = 10x, Minor = 20x

**The Progressive Jackpot** is a bonus game that accumulates from all bets placed on slot games provided by BF Games. The Progressive Jackpot system should be supported with a banner with the current value visible on the homepage.

**Fixed jackpots** - unlike progressive jackpots, nothing is contributed by the player; it's just a standard multiplier.

The same base values enable us to share jackpots and the chance of winning across CashMesh games. The current Jackpot presented is not an individual value for each game, but the amount of Jackpots from all CashMesh games with the same base values (jackpot sharing is configurable).
