Marketing description

777 Golden Hit brings a dazzling twist to the classic fruit slot, blending juicy wins with a touch of gold. This 3-reel, 3-row video slot with 5 fixed paylines is all about lining up shimmering symbols for golden rewards. Winning combinations begin on the leftmost reel and follow an active payline to the right, turning simple spins into gleaming victories.

Landing three Free Spins symbols on a payline unlocks 5 Free Spins, where the reels keep the excitement rolling. Free Spins can be retrigged, adding another 5 spins to the count each time, all played at the same bet level on an alternate set of reels.

At the heart of the game, the Wild symbol, represented by the gleaming Triple Seven, holds the power to substitute for all symbols. While it won't trigger Free Spins, each Wild that lands during Free Spins pays a dazzling $\times 20$ bet, making every golden spin shine even brighter.
