Game description

777 Goldfish is a 3-reel, 3-row video slot with 5 fixed paylines. Winning combinations are formed from left to right starting on the leftmost reel, with wins from multiple paylines accumulating for big total payouts.

The iconic Triple Seven symbol serves as the Wild, appearing on all reels and substituting for all other symbols. Pure Wild combinations also award generous payline wins. During Free Spins—triggered by landing three Free Spins symbols on a payline—every Wild symbol that appears awards an additional direct payout. Free Spins can also be retriggered for extra spins.

Additionally, any base game spin holds the chance to trigger the Goldfish Rewards feature. In this Pick and Click game, nine mysterious shells appear on screen, each hiding one of four prize tiers: MINI, MINOR, MAJOR, or GRAND. Players select shells one by one, and matching three identical Goldfish Reward symbols awards the corresponding prize!
