Game description

Step into the grandeur of ancient Greece, where marble pillars rise against the golden sky and fortunes are written in stone. Acropolis Fortune Dice invites you to spin among legendary riches, guided by divine symbols and watchful owls. With every turn, the whispers of gods echo across the reels, holding secrets of untold treasures. The fate of your fortune rests in the hands of the ancients.

Marketing description

The glory of Greece returns in Acropolis Fortune Dice, a classic 3x3 video slot with 5 paylines and a divine twist – the powerful Fortune Reel. Sitting above the reels, this special reel can change your fate with multipliers up to 15x, amplifying your winnings with every spin.

The gods smile brightest when the Owl Reward symbol appears in the centre of the Fortune Reel, unlocking one of four divine prizes: Mini, Minor, Major, or the almighty Grand, worth up to 1,000x your bet. No line win is needed to summon these rewards – they appear as blessings from the gods themselves.

For those who dare to embrace destiny, the Extra Chance feature removes the smallest multiplier from the Fortune Reel, leaving only greater powers and the Reward Owl to claim. At a small tribute of 50% extra stake, it heightens your chances of encountering the divine.

Acropolis Fortune Dice is a journey into the heart of ancient mythology, where multipliers, rewards, and the whispers of gods await at every spin
