

Alice in Wonderland Dice™

Alice in Wonderland Dice is a 5-reel, 3-row video slot with 243 ways to win. 243 ways to win means that players win any time they spin a winning combination from left to right on the reels. Winning combinations are achieved by landing identical symbols, at any position on adjacent reels, and in any form of 'line'. Winning combinations start on the first reel on the left (excluding the SCATTER symbol) and run along to the last reel on the right. Only the highest winning combination of one symbol is paid out. Other combinations from the same symbol are rejected.

Free Spins

Landing three or more SCATTER symbols will trigger 10 FREE SPINS. If FREE SPINS are retriggered, the player unlocks 10 extra FREE SPINS, which are added to the current number of FREE SPINS. During FREE SPINS an alternate set of reels is used. The middle three reels can each show up to three WILD symbols. Therefore, it is possible to spin 9 WILD symbols during FREE SPINS. FREE GAMES are played at triggered playing game bet multiplier.

Scatter

The SCATTER in this game is the TEAPOT symbol. SCATTER symbols can appear on all five reels. Only one SCATTER can appear on each reel. It is possible to generate winnings by a combination of SCATTER symbols only. Landing three or more SCATTER symbols will trigger 10 FREE SPINS with additional WILD STACKED symbols.

Stacked

In regular play, the STACKED symbol is the DRINK symbol. During FREE SPINS, the STACKED symbols are both the WILD [WATCH] and DRINK symbol.

Wild

The WILD in the game is the WATCH symbol. The WILD substitutes for all other symbols on the reels except for the SCATTER symbol. WILD symbols can only appear on the middle three reels and there can only be one WILD symbol on each of the middle three reels. Combinations using only WILD symbols cannot create wins. WILD symbols can only help generate wins by combining with other symbols to complete a winning line.
