9 Terms and conditions

SIQ has conducted a level of testing of the gaming product which has historically been adequate for a submission of this type. However, inherent in testing in a laboratory environment are the unavoidable limitations of it not being possible to verify the effects of all possible configurations and environments that occur in actual gaming venues. If any parties dispute our findings, or may present evidence or information contrary to our findings, SIQ would welcome the addition of this information for our consideration. In such an instance, SIQ reserves the right to amend or revise this document.

This document is for use by the named jurisdiction and only verifies the product described herein, subject to any conditions or limitations set forth herein. Any test results listed in this document only refer to the sample of the product submitted for testing.

The applicant and manufacturer named herein are solely responsible for possession of the appropriate license to sell, lease, service or provide gaming supplies or gaming related services in the jurisdiction for which this product was tested. It is the responsibility of the applicant, manufacturer and operator to ensure that the gaming product detailed herein is maintained and operated correctly, without defects and safely within the venue environment. Product shall be used in line with accompanying manuals and documentation. Conformity to specified criteria does not warrant product performance nor complete bug free operation.

This document shall not be reproduced except in full. This document shall not be reproduced without the written approval of SIQ.

1 Description of the game

Bonnie & Clyde is a 5-reel, 3-row video slot with 20 fixed paylines. The objective is to land as many identical symbols as possible along a payline. All line wins are multiplied by Line Bet. SCATTER and BONUS symbols are multiplied by Total Game Bet. Winning combinations start on the first reel on the left (excluding the SCATTER symbol) and run along a payline to the last reel on the right. Only the highest winning combination of one symbol is paid out.

Jukebox Feature

Landing JUKEBOX on the 2nd, 3rd and 4th reel activated The Pick and Click feature. There are six different randomly shuffled values which will illustrate 5, 10, 20, 30, 40 and 50 multiplier of the bet. The player can choose one symbol shown on the screen. The number chosen by the user is the value which user wins. The win will be added to the player's balance.

Free Spins

Landing three or more SCATTER symbols will trigger Free Spins mode. There are five different, randomly shuffled values, which are: 5, 10, 15, 20, 30. The player can choose one symbol shown on the screen. The number chosen by the user is the number of Free Spins. Free Spins can be retriggered.

If Free Spins are re-triggered, the player unlocks the initial number of the Free Spins, which are added to the current number of Free Spins. Free Spins are played at triggered bet and lines. During Free Spins an alternate set of reels is used. During the Free Spins WILD symbols are not displayed on the reels.

During the Free Spins both Bonnie and Clyde can come separate and not from the reels, but randomly. The Clyde Shot feature awards with 4 symbols in the shape of the square on the reels 1 to 4. The Bonnie Knife feature awards with 3 symbols diagonally.

Wild Symbol

WILD symbols appear on middle three reels only. WILDs substitute for all other symbols except for the SCATTER and JUKEBOX symbol. Only one WILD symbol can land on each reel.

If the WILD and CIGARETTE MAN symbols appear on the screen, all winnings shown on the screen are tripled, including the winnings from the SCATTER symbol.

Scatter Symbol

SCATTER symbols can appear on all reels. Only one SCATTER can appear on each reel. Landing three or more SCATTER symbols on the reels creates a winning combination. Three or more SCATTER symbols trigger Free Spins. WILD and SCATTER symbols cannot appear simultaneously on the same reel.
