

Cave of Gems™

Game description

Goblin returns for another adrenaline-fueled quest, and he wants you to be part of it! After the triumph of the last epic excavation, prepare yourself for a new and exciting adventure into the glistening depths below. What sparkling wonders might be hidden this time? With a brand-new cave filled with precious gems waiting to be uncovered, join Goblin once more in his pursuit of radiant riches. Unearth Persistent Wild Reels, uncover Treasure Chest Scatter symbols, earn Free Spins, and experience the gleaming Nitro Counter in the Cave of Gems.

Marketing description

As you venture into the Cave of Gems with Goblin, you'll find yourself navigating a 5-reel, 3-row slot with 30 gleaming paylines. Your mission? To match as many shining symbols as possible along a payline. Winning combinations start from the first reel on the left and twinkle their way to the last reel on the right. Only the most dazzling winning combination counts per line, but Goblin loves it when wins from different paylines stack up higher than his treasure pile!

While exploring, keep an eye out for the elusive Nitro symbols. These can appear as singles, doubles, or triples on the reels. Each Nitro adds 1, 2, or 3 to the counter above that reel. When a reel's counter hits three, the Persistent Wild feature kicks in, transforming that reel into a Persistent Wild for the next three spins. And if you trigger a new Persistent Wild, all active Persistent Wild reels get their countdowns reset to three spins. These wild reels stay wild into the free games round and beyond! Hit the jackpot by turning all five reels Persistent Wild at once, and you'll snag a golden prize of 200x your bet.

Deep within the cave, you'll discover the Treasure Chest scatter symbol, which can appear on any reel. Land three, four, or five of these glittering chests to win 10, 15, or 20 Free Games, respectively. During the Free Games, a Grand Nitro Meter joins the adventure, starting at zero. Each Nitro symbol that appears adds to the Grand Nitro Meter, which Goblin watches with eager anticipation. And guess what? You can retrigger Free Games by landing more Treasure Chest symbols, sending Goblin into a treasure-hunting frenzy!

As you fill the Grand Nitro Meter to 15 during the Free Games, you'll hit the grand reward of 500x your bet! If the meter is at least three, the Explode Feature might trigger, adding Bomb Wild symbols to random reel positions equal to the meter's count, then resetting the meter to zero. These explosive symbols substitute for any line-paying symbols and can lead to explosive wins!

Feeling too impatient to wait for Free Games to trigger naturally? Goblin's got you covered! You can buy your way into the Free Games with the Free Games Buy feature, available only in the base game.

Join Goblin in the Cave of Gems and uncover the sparkling treasures that await. It's a gem-filled adventure you won't want to miss!
