Chicken Madness Ultra™

Chicken Madness Ultra is a 5-reel, 3-row video slot with 10 fixed paylines. The objective is to land as many identical symbols as possible along the payline. Winning combinations start on the first reel on the left and run along a payline to the last reel on the right. Wins on different paylines are added. Only the highest winning combination of one symbol is paid out.

Multiplier

In the base game mode, multipliers ×2, ×3, ×4, ×5 will be awarded on 2, 3, 4 and 5 consecutive wins respectively. If there is no win, the multiplier resets to 1. If a win comes when the multiplier is already on maximum multiplier level ×5, then the multiplier will remain on ×5 until there is no win..

Cash Mesh

Landing 5 or more COIN symbols on any spin triggers the CASH MESH feature. Number of CASH MESH spins are according to the number of COIN symbols which triggered the CASH MESH feature. Each COIN symbol has a predefined value or a JACKPOT/BONUS label. On each CASH MESH spin, any position containing a COIN symbol is held and all other positions spin individually. CASH MESH spins keep awarding until either bonus spins finished or all positions filled.

Extra Bonus

If CASH MESH spins are finished and all positions on reels are not filled then CASH MESH BONUS SPIN will be awarded. CASH MESH BONUS SPINS may only be awarded

once per feature. Number of CASH MESH BONUS SPINS will be randomly awarded out of 1, 2 or 3.

Full House

Landing 15 COIN symbols during CASH MESH is awarded with an additional FULL HOUSE multiplier ×2 to total values of COIN symbols. The final winning is the value of all symbols added. FULL HOUSE multiplier is applied only on the reels winnings (excluding JACKPOT/BONUS wins).

Jackpot

Landing COIN symbol with JACKPOT or BONUS label on reels only during CASH MESH awards the player with an extra win. Offered prizes are shown on respective banners and may vary for each spin. JACKPOT or BONUS wins are available on every bet stake. Win value for MINI BONUS is fixed on {2}× bet stake, and for MINOR BONUS it is fixed on {3}× bet stake. MAJOR and GRAND JACKPOT values grow progressively after each spin. Each player on the casino's server participates in the value growth of each JACKPOT. The minimum value for MAJOR JACKPOT is {0}, and for the GRAND JACKPOT it is {1}. Once a GRAND or MAJOR JACKPOT is won on the casino's server, its value is set to nominal value. Current values for each JACKPOT and BONUS are shown on labels above gameplay. All JACKPOT and BONUS symbols can appear simultaneously on reels.
