Marketing description

Soak up the sun and chase tropical rewards with Copacabana Treasures Dice, a 3-reel, 3-row video slot from BF Games featuring 5 fixed paylines and a unique Treasure Reel packed with exciting surprises. Match identical symbols from left to right along active paylines to score wins inspired by the rhythm of beach life. The real heat comes from the Treasure Reel, where multipliers and the Bonus Reward symbol can appear in the center position on every spin. When a multiplier lands, all line wins are instantly boosted - with values ranging from $\times 1$ up to a sizzling $\times 15$, turning simple wins into sun-drenched payouts. Landing the Bonus Reward symbol in the Treasure Reel triggers the Rewards Feature, awarding a random prize worth $50\times$, $100\times$, $200\times$, or an $1000\times$ the bet - no line win required. If a line win occurs alongside the Bonus symbol, players collect their line wins first before diving into the rewards. Adding even more tropical intensity, players can activate the Extra Chance feature. By increasing the bet by 50%, the lowest $\times 1$ multiplier is removed from the Treasure Reel, significantly boosting the chances of landing higher multipliers and the Bonus Reward symbol.
