

Dopamine Rush

Game description

Enter a neon playground of colour, energy, and electric thrills with Dopamine Rush by BF Games! This vibrant 5-reel slot pulses with glowing neon symbols, dynamic animations, and an atmosphere designed to spark excitement with every spin. Sweets, brains, hearts, drinks, gamepads and more light up the reels like a futuristic arcade, creating a world where every moment glows with possibility

Marketing description

Dopamine Rush kicks off 2026 with an electrifying blast of colour, energy, and sensory overload! This 5-reel, 3-row video slot offers 243 Ways to Win, expanding up to 4608 Ways during the adrenaline-pumping RUSH SPIN, turning every cycle into a glowing ramp-up of anticipation and neon-charged action. At the core of the experience is the 10-spin cycle: the first nine spins play as regular spins, and the 10th spin becomes the high-intensity RUSH SPIN, where the reels expand and the upper grid activates - depending on how many DOPE Bonus symbols the player collected. The DOPE Bonus symbol appears on the middle three reels and fills slots on the upper grid. Every 5 collected symbols unlocks one full upper reel, boosting the player's chances for wins during the RUSH SPIN. Each bet level saves its own progress, letting players build their rush at their own pace.

During the RUSH SPIN, the game transforms into full neon overdrive:

- DOPE symbols can turn into Mini, Minor, Major, or Grand Rewards - or award EXTRA SPINS that extend the rush up to 3 times.
- CASH symbols award instant wins from 1× to 5× the bet, but only on fully unlocked reels.
- WILD symbols, appearing on the middle three reels, substitute for all except DOPE, BONUS and CASH, keeping neon combinations glowing across the grid.

With its progression system, explosive visuals, high-impact sound design, and a finale spin that delivers the game's true dopamine punch, Dopamine Rush is a vibrant, modern slot built to excite, engage, and immerse players in a world of pure neon reward energy.
