

Dragon's Chance™

Dragon's Chance is a 5-reel, 3-row video slot with 243 ways to win. Ways to win means that the player wins any time they spin a winning combination from left to right on the reels. Winning combinations are achieved by landing identical symbols, at any position on adjacent reels, and in any form of a "line". Only the highest winning combination of one symbol is paid out per way. Wins from different symbols are added up.

Wild

During the base gameplay, the WILD symbol is a multicolored DRAGON. It substitutes for all other symbols except for the SCATTER symbol. During the FREE SPINS, the WILD symbol on reels will be visible as one of the DRAGON symbols chosen at the beginning of the BONUS GAME: white, red, black, yellow or green. The WILD symbols can appear only on the middle three reels.

Scatter

The SCATTER symbol can appear on all reels. Only one SCATTER can appear on each reel. Landing three or more SCATTER symbols on adjacent reels creates a winning combination. Three or more SCATTER symbols trigger a BONUS GAME feature. WILD and SCATTER symbols cannot appear simultaneously on the same reel.

Bonus Game

When the BONUS GAME feature is triggered, the player chooses 1 out of 5 available sets with a varying number of FREE SPINS, for which WILD symbols' multipliers are randomly awarded throughout the FREE SPINS session out of 3 possible options. FREE SPINS

are played at the triggered bet. The BONUS GAME can be retriggered, always at the same bet as the initial round.

Bonus Game Retrigger

The BONUS GAME is retriggered if 3 SCATTER symbols appear on reels during FREE SPINS. Each retriggered BONUS GAME is accumulated, and their remaining number is displayed at the top of the reels, on the pouch icon. After the last of the FREE SPINS from the awarded BONUS GAME round has ended, the next accumulated BONUS GAME will be triggered, and the player will be asked to choose again from 1 out of 5 available sets of FREE SPINS options.

Multiplier Bonus

During FREE SPINS, if the ENVELOPE symbol appears both on 1st and 5th reel simultaneously, the player will win a bet multiplier bonus. The multiplier is random and can range between 2 and 50 × bet. During FREE SPINS, ENVELOPE symbols will also still create winning combinations.

Extra Chance

With the EXTRA CHANCE feature set to “on”, the player will get 5 more FREE SPINS during every BONUS GAME, either won or retriggered. The cost of EXTRA CHANCE is an additional 20% of the player’s current bet stake. Activating the EXTRA CHANCE feature will affect the BONUS GAME only by adding to it more FREE SPINS, and has no impact on the regular game mode. It means that the ways to win will always be paid the same amount, regardless of whether the EXTRA CHANCE feature is on or off.
