Game description

Embark on an epic quest for untold riches in the heart of the jungle with El Dorado Totems Dice, a captivating 5-reel, 3-row slot featuring ten paylines. As you navigate the dense foliage, the promise of hidden treasures awaits at every spin.

The key to unlocking the jungle's secrets lies in the Gold Totem symbol, the Wild that exclusively graces the middle three reels. With a limit of one Wild symbol per reel, this ancient guardian substitutes for all other symbols on its reel, guiding players toward winning combinations and the elusive wealth concealed within the rainforest's depths. In the heart-pounding Respin rounds, the reels adorned with the mystical Wild symbols remain steadfast, while the others spin with anticipation. Triggering consecutively up to three times, Respins unveil a cascade of possibilities, each spin drawing players closer to the fabled riches. Only one Respin is activated per spin, regardless of the number of Wild symbols. Brace yourself for an alternative set of reels during Respins, offering a unique twist to the thrilling adventure.

As the reels unfold and the jungle echoes with the anticipation of fortune, BF Games' El Dorado Totems Dice slot invites you to partake in a mesmerising journey where each spin is a step closer to the untold riches hidden within the heart of the ancient wilderness.
