

## Golem Wildwoods Dice

### Game description

The new Golem Wildwoods Dice slot by BF Games is set to bring chills and thrills this October, just in time for the Halloween season. The game transports you deep into a haunted forest, where an ancient wooden Golem roams the shadows, guarding hidden treasures. This eerie creature, born from the twisted roots and dark magic of the wild woods, awakens every autumn, luring those brave enough to venture into its domain. As you navigate through the forest, keep your eyes peeled for Wild symbols that can trigger Wild Multipliers, boosting your winnings while evoking the sense of being watched by the menacing Golem.

### Marketing description

Golem Wildwoods Dice by BF Games is a spine-chilling slot that invites players into a dark and mysterious forest, where a colossal wooden Golem stands guard over hidden treasures. This 5-reel game features a unique 1×3×4×3×1 window style, offering 36 ways to win. Players achieve winning combinations by landing identical symbols on adjacent reels, from left to right, in any form of a line.

The eerie theme is brought to life through the presence of Wild symbols, which appear only on the first and fifth reels. These Wilds carry with them the ancient magic of the Golem, capable of substituting for any other symbol to complete winning combinations. But their true power lies in the dark enchantments they hold—each Wild is imbued with a Multiplier, ranging from 1 to 9, reflecting the unpredictable forces of the wild woods. When two Wilds are part of a winning combination, their Multipliers multiply together, offering the potential for a massive 81x Multiplier on a single win for those can survive the Golem's haunting domain.

The game's innovative reel setup, combined with the spooky atmosphere and high stakes Wild Multipliers, makes Golem Wildwoods Dice an exhilarating experience perfect for the Halloween season. Every spin is a daring adventure into the unknown, where great rewards await those who can outwit the fearsome Golem who dare to seek its hidden riches.
