

Magnetic Coins

Magnetic Coins is a 3-reel, 3-row video slot with 5 fixed paylines. The objective is to land as many identical symbols as possible along a payline. Winning combinations start on the first reel on the left and run along an active payline to the last reel on the right. Only the highest winning combination is paid per line. Wins from different paylines are added up.

Wild

The WILD symbol substitutes for all other symbols on the reels except for the bonus symbols. The WILD symbol can appear on all reels. Combinations using only WILD symbols can create wins.

Magnet

The MAGNET symbol can appear only on the second reel. It collects all COIN and REWARD symbols and adds them to the spin winnings in the regular game or total win in the MAGNET BONUS. When there are more than 1 MAGNET symbol on the reels, each of them collects COIN and REWARD symbols individually.

Coin

COIN symbols can appear only on the first and the third reel. Each COIN symbol has a randomly assigned value of 1×/2×/3×/5×/10×/15× bet stake.

Rewards

REWARD symbols can appear only on the first and the third reel. There are 4 different rewards: MINI (20× bet stake), MINOR (50× bet stake), MAJOR (150× bet stake), and GRAND (1000× bet stake).

Magnet Bonus

Landing bonus symbols on all 3 reels triggers MAGNET BONUS. Only bonus symbols appear on reels during the MAGNET BONUS. All MAGNET symbols that hit will remain on the screen until the end of the MAGNET BONUS, and they collect the COIN and REWARD symbols individually, starting from 0. COIN and REWARD symbols spin individually each round. MAGNET BONUS starts with 3 respins. Each new symbol resets the number of respins to 3. When all respins are completed, the value of all MAGNET symbols is added to the total win.

Pile Of Gold

During the regular game, any bonus symbol landing on the reels gives a chance of triggering the pile of coins feature, which adds bonus symbols in a quantity enough (or more) to activate the MAGNET BONUS.

Extra Chance

With the EXTRA CHANCE feature set to “on”, the player will have double the chance of triggering the pile of coins during every regular spin. The cost of the EXTRA CHANCE is an additional 40% of the player’s current bet stake. Regardless of whether the EXTRA CHANCE feature is on or off, the winning combinations are always paid the same.
