Game description

Oktobeer Gold Dice by BF Games is a 5-reel, 3-row video slot with 20 fixed paylines, combining classic slot excitement with cascading mechanics and festive visuals inspired by traditional beer hall celebrations.

Wins are formed from left to right across active paylines, and every successful combination triggers the cascade feature. Winning symbols disappear from the reels, allowing new symbols to fall into place and create additional winning opportunities. With every new cascade, the multiplier increases step-by-step, building momentum throughout both the base game and Free Spins.

Adding extra excitement to the reels are expanding Wild symbols, appearing on the middle three reels and transforming to cover the full reel when part of a winning combination. These powerful expanding reels can increase payout potential and create bigger combinations during intense cascade sequences.

The celebration continues with the Bonus Wheel feature, triggered by landing three BONUS WHEEL symbols. Once activated, players spin a special wheel that awards a combination of Free Spins and win multipliers. During Free Spins, all wins are

boosted by the awarded multiplier, which combines with the active cascade multiplier for even greater winning potential.

Packed with festive visuals, energetic gameplay, cascading reels, and rewarding bonus features, Oktober Gold Dice delivers a vibrant slot experience where every spin feels like the centrepiece of a grand celebration.
