Game description

Raiders of the East by BF Games is a 5-reel video slot featuring 4 rows and up to 1,024 ways to win, blending eastern-inspired visuals with layered progression mechanics and rewarding bonus features. During the base game, the fourth row remains hidden, waiting to be unlocked through the legendary Shogun's Treasure mode.

Wins are formed from left to right across adjacent reels, while collected SHIP symbols gradually unlock stronger levels of the powerful Flying Wild feature. Three different Flying Wild symbols can appear depending on progression level, with higher tiers applying multipliers of up to $\times 3$ to winning combinations. When triggered, the Flying Wild lands randomly on the reels while low-value symbols are removed and replaced with premium symbols, increasing the chance of powerful payouts.

The journey toward greater rewards continues with the SHOGUN'S TREASURE mode, unlocked after collecting 60 SHIP symbols during the base game. Once activated, the hidden fourth row is permanently revealed for the duration of the session, transforming the game into a larger battlefield with enhanced winning potential. The mode also introduces the REEL WILD feature — expanding wild reels appearing

on reels 2, 3, and 4 that substitute for almost every symbol and guarantee a winning BONUS RESPIN when first unlocked.

Free Games bring even more excitement to the adventure. Landing 3 SCATTER symbols awards 10 FREE GAMES, where players can collect KEY symbols to unlock additional spins and increase a multiplier step-by-step up to ×5. Every 3 collected KEYS award 2 extra FREE SPINS, creating the potential for long-lasting bonus sessions packed with growing rewards.

For players eager to jump straight into the action, the Buy Feature allows instant access to FREE GAMES both in the base game and while SHOGUN'S TREASURE mode is active.

With evolving wild mechanics, persistent progression, expanding reels, and powerful bonus features inspired by legendary eastern adventures, Raiders of the East delivers a rich and immersive slot experience where every spin feels like a step toward destiny.
