

Raiders Of The East Dice

Raiders of the East Dice is a 5-reel, 4-row video slot with one hidden row at the top of the reels activated during SHOGUN'S TREASURE mode. During the base game, the additional row is covered and not included in the payouts. Wins are awarded on left to right on adjacent reels starting from the leftmost reel except for SCATTER symbols. There are up to 1024 ways to win in the game. Game progress is assigned to the selected bet. Bet change restores the saved state of the reels and map. Only the highest winning combination is paid per way. Wins from different ways are added up.

Flying Wild

There are 3 different types of FLYING WILD symbols, depending on the number of SHIP symbols collected during base game. {0} applies a ×3 multiplier to the winning combinations, {1} applies a ×2 multiplier and the {2} does not apply any multiplier. The FLYING WILD symbols substitutes for all other symbols except SCATTER and SHIP symbols. FLYING WILD and REEL WILD symbols cannot appear simultaneously on the same reel spin. Only one FLYING WILD symbol can appear during a single spin. The FLYING WILD feature can be triggered only during the base game and the SHOGUN'S TREASURE mode. If triggered, the FLYING WILD symbol will land in a random position on any reel except the first one. At the same time, all low value symbols will be removed from the reels and replaced by high value symbols. Then a win is awarded. The FLYING WILD symbol can land on all symbols except the SCATTER and SHIP symbols.

Shogun's Treasure

To trigger the SHOGUN'S TREASURE mode player needs to collect 60 SHIP symbols which appear only in base game. Each set of 20 collected SHIP symbols unlocks the next level of FLYING WILD. At each level, there is a possibility of appearing a FLYING WILD symbol from the current and the preceding levels. The collected SHIP count remains active until the session expires. After the session ends, the SHIP counter will reset to 0 for all bets.

Respin

After the 4th row gets unlocked one BONUS RESPIN with REEL WILD is activated. BONUS RESPIN has a guaranteed win.

Reel Wild

The REEL WILD is activated in the beginning of the SHOGUN'S TREASURE mode. The REEL WILD substitutes for all symbols except for the SCATTER symbol. The REEL WILD can appear on reels 2, 3 and 4. It appears as an expanded way which covers the entire reel. The REEL WILD and the FLYING WILD symbol cannot appear simultaneously on the same reel spin.

Free Games

10 FREE GAMES are awarded with landing 3 SCATTER symbols on reels. SCATTER symbols can appear on reels 1, 3 and 5. It is not possible to generate winnings by combining SCATTER symbols.

If 3, 6, 9 or 12 KEY symbols are collected, the player gets 2 EXTRA FREE SPINS and the global FREE GAME MULTIPLIER increases to $\times 2$, $\times 3$, $\times 4$ or $\times 5$ respectively. Once twelve keys are collected, no more KEY symbols will appear on the reels. FLYING WILD is not active during FREE GAMES.
