Ruby Joker

Ruby Joker is a 5-reel, 3-row video slot with 10 fixed paylines. The objective is to land as many identical symbols as possible along a payline on adjacent reels. Winning combinations start on the first reel on the left and run along an active payline to the last reel on the right. Only the highest winning combination is paid per line. Wins on different paylines are added up.

Scatter

The SCATTER in this game is the STAR symbol. The SCATTER symbol can appear on all five reels. Only one SCATTER symbol can appear on each reel. Landing three or more SCATTER symbols will form a winning combination. WILD and SCATTER symbols cannot appear simultaneously on the same reel.

Wild

The WILD in this game is the JOKER symbol. The WILD symbol appears on reels 2, 3, and 4 and substitutes for all other symbols except SCATTER and BONUS symbols. Only one WILD can appear on each reel. WILD and SCATTER symbols cannot appear simultaneously on the same reel. Whenever the WILD symbol is a part of the winning line, it expands and covers the full reel, transforming into EXPANDING WILD.

Bonus

The BONUS in this game is the RUBY symbol. The BONUS symbol can appear only on reels 1, 3, and 5. Landing three BONUS symbols will form a winning combination.

Joker Spins

With the JOKER SPINS feature set to "on", the WILD symbol is guaranteed to appear on the reels during every spin. The player is able to choose the guaranteed number of WILD symbols between 1, 2, or 3, which cost correspondingly 6×, 20×, or 65× the current base bet stake. The final cost of each of the JOKER SPINS is called TOTAL BET. To deactivate the feature, pick the same number of JOKER SPINS again or click the {0} button. Regardless of whether the JOKER SPINS feature is on or off, the winning combinations are always paid the same. During the JOKER SPINS feature, an alternative set of reels is used.
