Marketing description

Street Basket 3x3 by BF Games takes the classic 3-reel, 3-row format and brings it straight to the urban playground. Featuring 5 fixed paylines, the action is simple to follow - but layered with energetic mechanics inspired by street basketball culture.

Winning combinations form from left to right across active paylines, with only the highest win per line paid and all line wins added together. The WILD symbol can appear on all reels, substituting for other symbols and even forming winning combinations on its own.

The real action centers around the BASKET symbol, which appears exclusively on the second reel. When it lands, it collects all BALL and REWARD symbols from reels one and three. BALL symbols carry random multipliers ranging from 1x to 15x the bet, while REWARD symbols offer fixed prize tiers: MINI (20x), MINOR (50x), MAJOR (150x), and GRAND (1000x) the bet stake.

Landing BONUS symbols on all three reels activates the BASKET BONUS — a respin feature where only BONUS symbols appear. The round begins with 3 respins, and every new symbol resets the counter to 3. BASKET symbols that land during the

feature remain locked in place, collecting BALL and REWARD values individually until the respins conclude.

During regular gameplay, BONUS symbols may trigger the pile of balls feature, adding enough BONUS symbols to launch the BASKET BONUS. Players can also activate the EXTRA CHANCE option, doubling the likelihood of triggering this feature for an additional 40% bet cost, while standard win mechanics remain unchanged.

Compact in size but packed with motion, Street Basket 3x3 turns every spin into a fast break moment on the reels.
