

Stunning Crown Extra

Marketing description

Stunning Crown Extra by BF Games brings the royal classic back to the spotlight now with even greater command over the reels. Set within a radiant castle of jewels, fruits and gleaming symbols, this 5-reel, 3-row slot with 10 fixed paylines blends familiar mechanics with a bold new layer of control.

At the heart of the experience lies the optional Crown Spins feature, allowing players to choose 1, 2, or 3 guaranteed Crown Wilds on every spin. With an alternative reel set activated during the feature and the core gameplay remaining unchanged, Stunning Crown Extra enhances the majestic formula while keeping its timeless appeal intact.

Game description

Enter a realm where crowns rule and stars shine across the reels. Stunning Crown Extra unfolds on a 5x3 layout with 10 fixed paylines, where winning combinations form from left to right, beginning on the first reel. Only the highest win per line is paid, and every winning payline adds to the royal tally.

The radiant STAR Scatter may appear on any reel, and landing three or more unlocks a winning combination that lights up the castle walls. The mighty CROWN Wild reigns over reels 2, 3 and 4, substituting for almost all symbols and expanding to cover the entire reel whenever it forms part of a winning line - asserting its authority as an Expanding Wild.

Meanwhile, the mysterious ORB Bonus symbol reveals itself exclusively on reels 1, 3 and 5. When three Orbs align, they form their own winning combination, adding another layer to the regal pursuit.

For those seeking greater command, Crown Spins introduce a powerful optional enhancement. Activate the feature and choose your guaranteed number of Crown Wilds - 1, 2 or 3 per spin - adjusting the TOTAL BET accordingly (6x, 20x or 65x the

base bet). During Crown Spins, an alternative reel set comes into play, while the fundamental win mechanics remain the same.

Stunning Crown Extra preserves the elegance of the original while placing the crown firmly in the player's hands.
