Marketing description

To bake the perfect slot game, all you need is a cup of flour, a heaped spoonful of sugar and a bucketload of delicious features. Mix up all your ingredients, and voilà — you've got the perfect dessert! BF Games will save you the hassle though; Sweet Reward is freshly baked, allergy free and ready to be served at your nearest Candyland!

With a 5-reel, 3-row and 20 payline setup, the new Sweet Reward slot has enough juice to go around, and more! This love-at-first-bite treat is packed with mouth-watering flavours, with one of the most noteworthy being the cream-filled Golden Biscuit Scatter. Take at least three bites out of Scatters to trigger 12 Free Spins alongside a superb x3 Multiplier. Your course of Free Spins is served on a different set of reels, and the best part is that if you aren't quite full yet, you can order even more. When retriggering the Free Spins round, you unlock 12 extra Free Spins that are added to your current spins serving, with the same multiplier.

When making it to Candyland, you should also keep your eyes peeled (and mouth open) for swirly Lollipop Wilds. These can appear on the middle three reels and have the ability to substitute for any other treat on the reels.

Are you ready to dig in? Grab a plate and sink your teeth into Sweet Reward!
