GAME FEATURES

WEREWOLF HOUR

Bonus game - Action runs in 12-spin cycles. Spins 1-11 are regular, but spin 12 turns into a Midnight Spin, unlocking the upper reels based on how many Bonus symbols you've collected in regular game. Once the cycle ends, the upper reels lock, and a new countdown begins.

Collect feature - In the regular game, Bonus symbols (Crystal and Gold Werewolf) can appear on the middle reels. Each one unlocks a slot in its column on the upper reel. Collect 5 to fully unlock that reel, giving access to Jewel and Cash symbols during the Midnight Spin.

Jewel - Appears during Midnight Spins and pays only on fully unlocked reels. Can transform into instant rewards (Mini, Minor, Major, Grand) or grant Extra Spins.

Cash - Appears during the Midnight Spin and pays only on fully unlocked reels, awarding 1x to 5x your bet.

Extra Spins - Grants up to 3 additional Midnight Spins, keeping the same reel configuration and adding to your total spins.
